

SYED MUBASHIR ALI

Senior Flutter Developer | Mobile · Web · Desktop

+92 310 5205275 • smubashirali620@gmail.com • linkedin.com/in/syedmubashir-ali-796122177 • Islamabad, Pakistan

PROFESSIONAL SUMMARY

Results-driven Senior Flutter Developer with 4+ years of hands-on experience architecting and shipping 20+ production-ready applications across fintech, POS, travel, healthcare, and consumer platforms. Proven ability to own the full development lifecycle — from architecture to App Store deployment — while delivering clean, scalable, and performance-optimized code. Experienced in cross-functional and remote team environments, with a strong track record of translating complex business requirements into polished, user-centric mobile, web, and desktop solutions.

WORK EXPERIENCE

Senior Flutter Developer | DPL (deployed to Axian Group) · Islamabad, PK

January 2026 – Present

- ▶ Embedded within Axian Group, a pan-African telecom and fintech conglomerate, delivering Flutter solutions across multiple high-impact product lines.
- ▶ Developing the Tanzania Super App — a multi-service platform combining fintech, telecom, and daily utility services in a single Flutter application for the Tanzanian market.
- ▶ Building a fintech application for digital payments, wallet management, and financial services; and a self-care app enabling telecom subscribers to manage accounts, plans, and usage.
- ▶ Contributing to a telecom platform project, delivering cross-platform features for network service management and subscriber experience across African markets.

Flutter Developer | Impact IT Solutions · Islamabad, PK

April 2025 – December 2025

- ▶ Managed and maintained a Flutter-based Point of Sale (POS) system deployed across multiple outlets at the University of Wollongong (UOW), Australia — covering items & categories, stock, supplier, purchase orders, cashier, and kitchen-side operations.
- ▶ Developed and maintained Pulse, a student mobile application serving UOW students for food ordering, book purchasing, vouchers, coupons, event information, and membership subscriptions.
- ▶ Implemented advanced discount and promotion systems including vouchers, coupons, and promotional offer management.
- ▶ Ensured system reliability through proactive performance monitoring, issue resolution, and cross-team collaboration.

Senior Flutter Developer | KodersPoint · Lahore, PK (Remote)

July 2023 – October 2025

- ▶ Architected and delivered cross-platform MVPs and full-scale applications for diverse clients using Flutter, with additional projects in React Native and Java (Android).
- ▶ Built and deployed multiple Flutter Web admin panels for business management workflows.
- ▶ Consistently delivered optimized, client-tailored solutions across varied industry verticals including e-commerce, services, and utilities.

Flutter Developer | HeapStash Global (for Sheikh Makhtoum Neo Technologies, UAE) · Lahore, PK (Remote)

November 2023 – March 2025

- ▶ Engineered Neo One, a fintech mobile application integrating bank account linking and cryptocurrency wallet management with secure transaction handling.

- ▶ Built Neo Pass, a Flutter web application for international flight bookings with integrated cryptocurrency payment support, optimized for performance and seamless UX.

Flutter Mobile App Developer | Khas Tech · Islamabad, PK

July 2022 – November 2023

- ▶ Developed and published 20+ Flutter applications to the Google Play Store and Apple App Store, growing the company's App Store presence from 0 to 20+ live apps.
- ▶ Delivered AI-powered image processing apps (Enhancer, Remover, Sketcher) leveraging Google ML Kit, OpenCV, and FFmpeg.
- ▶ Built ICR (Intelligent Character Recognition) applications for document scanning and text extraction.
- ▶ Created fitness tracking and pedometer applications for location-based and health services.

TECHNICAL SKILLS

Core Technologies: Flutter, Dart, Firebase (Firestore, Realtime DB, Auth, Cloud Messaging, Analytics, Crashlytics)

State Management: Provider, GetX, Flutter BLoC

Networking & APIs: REST APIs, HTTP, Dio, JSON serialization

Local Storage: SQLite, Hive, SharedPreferences

Payments & Subscriptions: Stripe, PhonePay, Linkly, In-App Purchases (IAP), Subscription Management

Notifications: FCM, OneSignal, Flutter Local Notifications, Awesome Notifications

Location & Maps: Google Maps, Geolocator, GeoCoding

ML & Media: Google ML Kit, OpenCV, FFmpeg

Ads & Monetization: Google AdMob, AppLovin, Meta Audience Network

Web & Backend: Next.js, Node.js, Express.js, TypeScript

Deployment: Google Play Store, Apple App Store, CI/CD pipelines

Tools & Practices: Git, Agile/Scrum, Clean Architecture, MVVM, REST API Design

SELECTED PROJECTS

- ▶ **iPOS:** Enterprise-grade POS system for UOW Australia — inventory, purchasing automation, cashier & kitchen modules, Linkly payment integration.
- ▶ **Pulse:** Student super-app for University of Wollongong — food ordering, memberships, events, vouchers, and discount management.
- ▶ **Neo One:** Fintech platform integrating banking and cryptocurrency wallet management with secure, real-time transactions.
- ▶ **Neo Pass:** Web-based international flight booking platform with cryptocurrency payment gateway, built in Flutter Web.
- ▶ **Elemed:** Doctor appointment scheduling app with Firebase-powered real-time sync, secure auth, and patient-doctor communication.
- ▶ **MyClickerr:** Photographer booking marketplace with in-app chat, Stripe payments, custom orders, and FCM/OneSignal push notifications.
- ▶ **BrightFlix:** Cross-platform Netflix-style streaming app featuring personalized recommendations, user profiles, and content filtering.
- ▶ **Nop Commerce App:** Cross-platform e-commerce application with real-time order tracking, cart management, and secure checkout.

EDUCATION

Bachelor of Science in Computer Science | PMAS Arid Agriculture University, Rawalpindi

October 2018 – June 2022

CERTIFICATIONS

Mastering Next.js with TypeScript (*Aug 2025*) | **Node.js, Express & More: Complete Bootcamp** (*Apr 2025*) | **Flutter BLoC — Zero to Hero** (*May 2024*)
